## **1. Project Background**

To face the challenges of the 21<sup>st</sup> century, the Government of Bangladesh with the help of international development financing agencies has undertaken a series of structural reform programs in its development activities. As part of development works, the Bangladesh Government and the World Bank jointly implementing a five year long “Dhaka City Neighborhood Upgrading Project” (DCNUP, the Project). The Dhaka South City Corporation (DSCC), under the Local Government Division of the Ministry of Local Government, Rural Development and Cooperatives, is the implementing agency of the project. Dhaka city accounts for about one-fifth of the country's gross domestic product (GDP) and half of formal employment. The mega city also plays an important role in achieving the government's vision of upper-middle income country. Dhaka is one of the world's most densely populated cities. Due to inadequate infrastructure, lack of public amenities and severe traffic congestion, the residents face many difficulties in their everyday lives. The project will cater to the differentiated needs of women and children, elderly and physically challenged persons. Women in Dhaka face challenges in terms of mobility, walkability and access to public infrastructure. To improve personal safety and access for women, children and elderly, the project will ensure safe-pleasant mobility, energy-efficient street lighting, Community Center, Green Building, Traffic improvement and other integrated amenities. The project will also help to enhance green open spaces by improving selected parks, streets and waterfront areas of 4 (four) Neighborhoods of Dhaka: (i) Kamrangirchar; (ii) Lalbagh; (iii) Sutrapur-Nayabazar-Gulistan; and (iv) Khilgaon-Mugdha-Bashabo. It will also pilot interventions for safe mobility and traffic management and incorporate environment-friendly features and energy efficient design principles and materials in all interventions that it will support.

## **2. Subproject Description**

The DSCC has identified a subproject at Khilgaon-Mugdha-Bashabo for implementation under the project. The name of the subproject is “Bhuiyan Math Playground Improvement” in Ward No. 2 under Zone 2 of the DSCC. The field of Bhuiyan Math is 4694.35 square meters ( 1.16 acres). The field is now mostly used by young boys for games like football, cricket, badminton, etc. in a haphazard manner in different parts of the field for recreational purposes. There is also an existing cricket net practice area in the field. The local people play volleyball in this field as well, which is a very popular activity among them. This field is always crowded with the teenagers who play in this field almost all the time. Goran Road, a narrow lane, surrounds the field on north, east and southern side. Men & women both use this road as their walking track for physical exercise. The playground proposed for improvement under the subproject is in miserable condition and unhealthy right now. As a result, the local people are not getting desired benefit from this

playground. Physical expansion of the playground is not possible due mainly to compact settlement and high price of land along the playground. The residential zone is in the west side of the subproject. On the east side, there is an existing Secondary Transfer Station (STS). On the north side, there is an existing mosque. There is also another mosque beside the STS. In the south east corner there located a WASA pump.

The neighborhood and subproject activities in the neighborhood were identified and designed in consultation with and participation of the local communities irrespective of gender, age, education and social status. The subproject location was selected considering the following issues:

- The selected area is much densely and developing. If the playground is improved and constructed, the local people will be benefitted much;
- If walkway is developed around the playground, the local people including women especially senior citizens will be able to walk joyfully and get health benefit as well;
- Newly-designed playground may bring behavior change among the local people;
- If the children playground with slide and sandpit is constructed, the children will play there and their mobile game addiction will be reduced;
- Once the playground is improved and constructed, the people of the area will experience improved city livability and municipal services;
- Due to subproject implementation, employment opportunity for the local people may increase because the civil contractor will require skilled and unskilled labour for construction works and the local people may engage themselves in the works. Local female workers will also be able to engage themselves in construction works.

### **3. The Subproject Area**

The subproject is located in the Khilgaon-Mugdha-Bashabo area under the Zone 2 of DSCC. The subproject area is bounded by Khilgaon Police Station on the North, Sobujbagh and Shahjahanpur Police Station on the South, Rampura Police Station on the South-East and Ramna Police Station on the West. The area is enriched with many schools and colleges, small garments factories and markets. Goran Road surrounds the playground on north, east and southern side. Thus, within the organic spatial structure of Dhaka, the site can be primarily accessed from the northern and southern side from Goran Road which is connected to the Tilpapara Road. As this access road is connected with the surrounding urban fabric through the network of local streets, the residents of some adjacent areas can take a walk to reach the field. The built density of the catchment area shows that the area is being covered by multi storied buildings. More high rises are being built in last few years. There is a historical/heritage site/building named Buddha Mondir within 2 kilometers of subproject area.

According to the BBS (Bangladesh Bureau of Statistics)-2011, the total area of Ward No. 2 is 1.03 sq. kilometer and there are 26,869 households. The Ward has 113,273 residents of whom 59,610 are male and 53,663 are female. The literacy rate of the Ward is 78.5% and sex ratio is 111. The population density ratio of the Ward is 109,274 in per sq. kilometer. According to Directorate of Social Welfare, there are 423 physically challenged persons in the Ward, of them 250 are male and 173 are female. Considering 1.2 % inflation rate for per year, the total population of 2021 is approximately 129,155 (Male-67,968 and Female-61,187) who will directly or indirectly use the playground under the subproject.

#### 4. The Subproject Design

The total area of Bhuiyan Math Playground is 4,640.42 square meters. The subproject is taken for improvement of the playground. As per the suggestions of the stakeholders, the design team has incorporated Football Field (27m X 47m), Half Court Basketball (9.4m X 15.8m), Multipurpose Court (9m X 18m), Cricket Net Practice Area (6m X 30m), Jogging Track (2.4m Wide), RCC Walkway With Chini Tikri (colorful broken tiles used for architectural aesthetic) (Min 2.1m), Outdoor Gym (including Equipment For Senior Citizen & Physically Challenged Person), Children Playground (With Playing Equipment), Rain Garden (Includes 1 Bridge & 1 View Deck), Galleries, Electrical Room & Pump Room, Seating Area With Center Plantation, Bench, Waste Bin, Drinking Water Fountain Both For Adult & Children, Signage At Entry and 3 Types Of Boundary Wall in the playground.

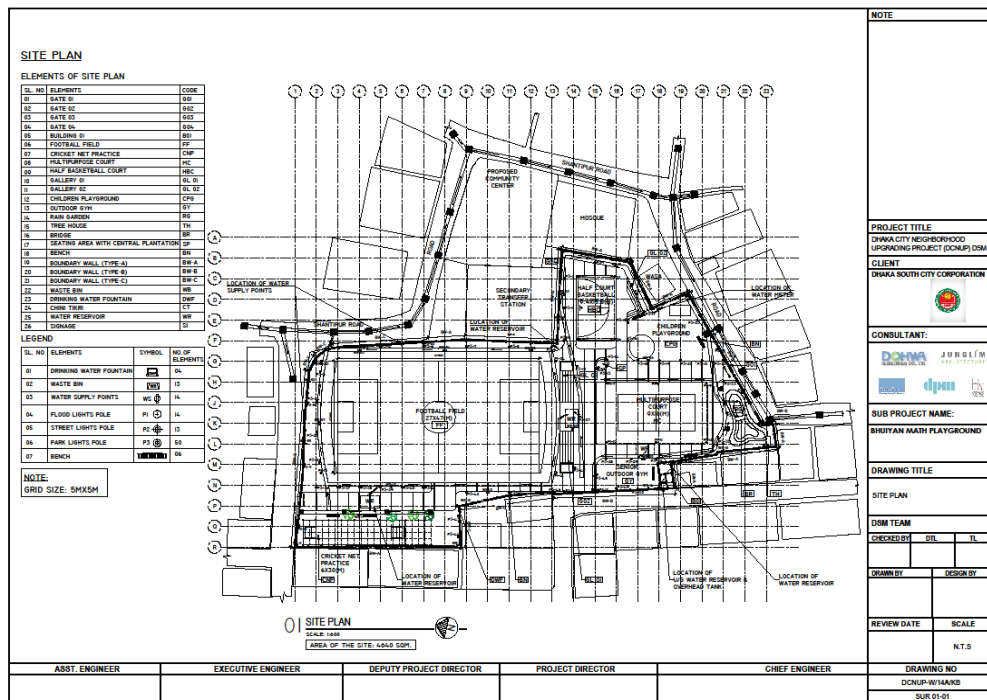

Figure 1: Proposed Site Plan of Bhuiyan Math Playground

Figure 2: 3D view of proposed Bhuiyan Math Playground

## 5. Social Risks and Safeguards Impacts

- During consultation the stakeholders raised no major risk issues. The impacts the stakeholders raised are dust and sound pollution. The stakeholders apprehended that during construction works, additional dust could be created and noise could cross its limit. The DSCC has committed the stakeholders to ensure spraying water by the civil contractor during construction to reduce dust and to instruct the contractor to take initiative to reduce sound pollution.
- The social screening confirmed that this Works Packages (W-14A/KB) does not have any involuntary resettlement impacts. So no Resettlement Plan will therefore be required as per requirement of the Resettlement Policy Framework (RPF) adopted for the project. **Appendix A** provides the social screening results. Social issues like community participation in identification and design was followed in the subproject identification and design process. The consultation and participation process covered communities from all available groups, men, women, elderly, youth, students, vulnerable and the elite.
- The community may, however, suffer construction related risks and impacts including temporary restriction of sports, noise, dust and labor influx including risks of gender based violence (GBV) differently experienced by men and women but as the subproject

activities will be within an urban area with closer supervision by the DSCC team and DSM Consultant, the risks of labor influx and GBV will be very low.

## 6. Cut Off date

The Subproject, W-14A/KB of Dhaka City Neighborhood Upgrading Project (DCNUP) of Dhaka South City Corporation (DSCC) will be implemented in the Goran Road under Bashabo thana area in Ward No. 2 under Zone 2 of DSCC. At present, The playground is mostly used by young boys for games like football, cricket, badminton, volleyball, etc. in a haphazard manner in different parts of the field for recreational purposes. The social screenings of Bhuiyan Math Playground was conducted on February 26, 2020 (Social Screening Report is attached as **Appendix-A**) with participation of Mr. Md. Anisur Rahman, respected Ward Councilor, Ward No. 2 of the DSCC and the community people and the date was declared as Cut-off date for the respective Ward for recognition of any affected persons due to design and implementation of the subproject. It was declared among the communities during consultation that any unauthorized encroachment into the proposed location for any activity afterwards would not be considered for compensation under the project.

## 7. Disclosure and Consultation

Two rounds of consultation were carried out with the stakeholders and community people. During the design preparatory stage of the subproject, objectives and implementation approach of the subproject, neighborhood selection criteria, subproject identification criteria, and social requirements including safeguards, inclusion, participation, gender and disability issues, GBV risks, labor influx issues and GRM were discussed with the stakeholders and community people. The DSM Consultant with the help of PIU and the Zone Office 2 carried out the consultations for identification and design of these subproject with the help of local Councilor. The representation in the consultation process was all-inclusive and participatory. A total of 36 (Thirty six) potential users/community people, men, senior citizens and businessmen were consulted in the consultation meetings (proceedings of consultation are attached as **Appendix-C**). Existing problems of the community people and possible construction and rehabilitation measures were discussed in the meeting for feedback from the communities. Different social risks during and after implementation of the subprojects were also consulted with the participants.

During the design preparatory stage, the PIU conducted two stakeholder's consultations for improvement of Bhuiyan Math Playground. The consultation meetings were inclusive (**meeting minutes is attached as Appendix-C**). The stakeholders have placed their suggestions during consultation meetings. First stakeholders' consultation was held on February 26, 2020 beside the

Bhuiyan Math playground ,Ward No. 2 of the DSCC with diverse group to know and receive suggestions and desire of the local people about improvement of Bhuiyan Math playground. A total of 36 (Thirty six) participants participated in that consultation meeting. The participants have opined that Bhuiyan Math is a very densely populated area and this densely populated area does not have any playground for children and young people to play and also walkway for senior citizens. They pointed out that though the existing Math is not useable but children and young group of the locality play here regularly facing adverse situation. They opined that if the Math is improved and decorated, the local children as well as young group will come to the Math and play here which will keep them away from drugs as well as mobile games addiction. The senior citizens of the area will also be happy with walkway to be constructed around the Math. They have demanded high fence two galleries for viewers/audiences. The respected Councilor has demanded two cricket pitches in the playground so that local children and youth can practice cricket and the locality can nurturing national players. The participants also demanded walkway, seating arrangement, a gymnasium, badminton and volleyball courts in the playground. They have also suggested to plant trees beside the playground. They have also requested to spray water to reduce dust created air pollution and to control sound pollution during construction period. They have demanded toilet facilities beside the playground. They have also suggested a tin made boundary to block the construction site during the construction period for the safety of the local people as well as controlling air pollution. They have also demanded employment opportunity of the local vulnerable groups during construction period. Second consultation was held on September 23, 2021 with specially vulnerable group at field level to know and receive suggestions and desire of the people about improvement and construction works of Bhuiyan Math playground. There were 24 participants in that field level consultation meeting. The participants have suggested for improvement of the field as the field is in miserable condition. They have suggested for a running track, football field, net pitch for cricket, volleyball, basketball and badminton court, children playground, shaded seating corner, vegetation, toilet facilities and proper utility facility. They have suggested for a boundary (with Tin or jute to block the construction site) during the construction period for the safety of the local people as well as controlling air pollution.

During the appraisal stage, the DSM Consultant with the help of PIU also conducted a stakeholder's consultation on March 09, 2022 to appraise the stakeholders about the design that was developed considering their suggestions. In the design preparatory stage, there were 36 participants and in the appraisal stage, there were 49 participants. The participants who provided their opinions in the consultation meeting during preparatory stage, among them about 45% (16 participants) of the participants were present in the appraisal stage. All the stakeholders including the respected

Councilor appreciated the design and expressed their satisfaction saying that the design will serve their desire purpose (**Meeting minutes and attendance are attached as Appendix-C**). All the construction works will be carried out involving stakeholders as well as considering their recommendations.

## **8. Social Management Plan**

### **8.1 Objectives and Principles**

The subproject activities will not involve any acquisition of land or involuntary displacement of people, either physically or economically, temporarily or permanently. Other social risks including social exclusion, gender discrimination, community engagement, labor influx and GBV, other construction related impacts including traffic congestion, dust and sound pollution will be managed under the subproject's Social Management Plan (SMP).

The principles, guidelines, and procedures provided in this SMP are intended to ensure that the subproject activities have been identified and designed and will be implemented following approach to achieve the following objectives:

- a. Enhance positive social outcomes of the activities financed under the DCNUP;
- b. Ensure participation of the target communities, including women and disadvantaged, while identifying the specific measures/activities for adaptation to the development work impacts;
- c. Prevent or compensate for loss of livelihood, which may result from land-based adaptation activities and use of common property resources;
- d. Ensure compliance with the relevant government policies and those of the World Bank on social safeguards and other social issues, including those with gender implications;

### **8.2 Community Participation during Implementation**

The DSM Consultant with the help of PIU of DSCC conducted stakeholders consultation meetings during design stage and appraisal stage of the subproject for improvement of Bhuiyan Math Playground under the subproject and accordingly designed the same considering all the feasible options obtained from the community in the consultation process.

During the consultation, the participants have demanded football field and DCNUP has designed football field in the playground; the participants have demanded walkway and DCNUP has designed RCC Walkway with Chini Tikri (colorful broken tiles used for architectural aesthetic) around the playground; the participants have demanded cricket pitch and DCNUP has designed cricket pitch in the playground; the participants have demanded galleries for viewers/audiences and

DCNUP has designed galleries for viewers/audiences; the participants have demanded shaded seating arrangement and DCNUP has designed Seating Area with Center Plantation in the playground; the participants have demanded a gymnasium and DCNUP has designed outdoor Gym including Equipment for Senior Citizen & Physically Challenged Person in the playground; the participants have demanded a basketball court and DCNUP has designed a basketball court in the playground; the participants have demanded badminton and volleyball courts in the playground and DCNUP has designed a multipurpose court in the playground that can be used as badminton and volleyball courts; the participants have demanded to plant trees in the playground and DCNUP will plant trees in the playground; the participants have demanded boundary wall in the playground and DCNUP has designed 3 types of boundary wall in the playground; the participants have demanded a children playground and DCNUP has designed a children playground with playing equipment. In addition, the design team has incorporated jogging track, rain garden, electrical room & pump room, bench for sitting, waste bin and drinking water fountain both for adult & children in the playground. All the construction works will be carried out involving stakeholders as well as considering their recommendations.

**Community participation approach in the implementation process:** During the implementation of the subproject, the DSM Consultant with the help of PIU will further engage communities in the subproject level inclusive of age, gender and social status and carry out consultation meetings with them on regular basis to incorporate their feedback. The participants will be of the community peoples including senior citizens, community associations, businessmen, students, women and disadvantaged to seek their participation and feedback in quality control and smooth implementation of the subproject activities. The local councilor will help to organize the community people and the Zone Office 2 of DSCC and the consultants will facilitate, document and disclose the consultation proceedings. The consultation process and feedback will be reported in the monthly social monitoring report to share with the World Bank.

### **8.3 Gender, Age and Disability Inclusion**

The subproject design considered gender, age and disability of community people based on consultation and participation inclusive of age, gender and physical ability. During consultation meetings, female participants were also attended. The DSM Consultant with the help of PIU, DSCC in the subproject implementation process, will engage communities inclusive of age, gender and disability to gather their respective views and preferences to integrate in subproject civil works construction. The subproject activities have been designed to ensure participation of the local residents, women, children including girls, senior citizens, and physically challenged persons. The design team has incorporated gym facilities for the senior citizen & physically challenged persons

and children playground with playing equipment for the child. The DSCC will ensure that women are involved in civil works construction and they will enjoy (i) equal pay for equal work; (ii) gender friendly work environment; and (iii) work place safety for women and children.

#### **8.4 Labor Influx and GBV Risks Management**

The project is being implemented in the Capital City of Dhaka and the DSCC will apply its current capacity enhanced with supervision consultant for civil works supervision. Number of workers will be low in the construction site and all will be locally recruited. The risks of labor influx and GBV will therefore be very low and also be managed with close supervision against laborers code of conduct. The PIU will instruct the civil works contractor and subcontractors to engage local labor as many as possible and build makeshift toilets and sanitation system in the construction area to ensure safe and healthy working environment. The contractor will also be asked to take safety measures during construction. The PIU will follow and the contractor will ensure that the influx of workers and followers cannot lead to any social and environmental impacts on local communities. Before engagement in civil works, the labors will be given an orientation/training. Their activities will be regularly monitored by the contractor, DSM Consultant and PIU and it will be incorporated in the monthly safeguard monitoring report and submit to the World Bank. A Code of Conduct will be developed and will be signed by all workers in this regard. Workers will also be trained so as to deter any case of GBV/SEA/SH.

Severity of the risks of labor influx varies for community absorption capacity, number of laborers in a worksite and the duration of civil works construction. The risk is assessed to be low as the numbers of workers will be small compared to the size of the host community. Moreover, the site is in an urban area with high absorption capacity and law-enforcement is strong. The DSM Consultant in coordination with PIU of DSCC will, however, conduct site specific labor influx screening and assessment to identify related risks for management. The civil works contractor concerned will develop Contractor's Environmental and Social Management Plan (C-ESMP) following the project EMF and RPF and report its implementation status regularly to the PIU. The PIU, however, will include labor related information and update in their regular project progress reports.

#### **8.5 Grievance Management**

A two-tier Grievance Redress Mechanism (GRM) has been established for the subproject including; (i) Ward Level GRM (Tier one) and (ii) Project Level GRM (Tier two). Tier two GRM receives complaints and grievances those cannot be resolved at the tier one GRM. Responsible Executive Engineer has been assigned as the convener of the Ward level GRM, while the Project Director at

PIU is the chair of the project level GRM. A five-member Grievance Redress Committee (GRC) at the Ward level has already been formed and authorized to deal with all suggestions and complaints at the Ward level. The DSCC has ensured that communities are fully informed about the GRM and their rights to offer suggestions and make complaints, and the different mechanisms through which they can do so. As the concentration of subprojects is within the city, the secretariat of both GRM are at PIU HQ. GRC may sit on any grievances and suggestions from the communities at the ward level locally or in the office of the Ward Councilor or at the PIU HQ.

The membership of the GRC ensures representation of complaints and grievances as well as impartial hearings and investigations, and transparent resolutions. The GRC Convener requests the Ward Councilor concerned from which the complaint was received to participate in the hearing. If the aggrieved person is a female, GRC requests the female Ward Councilor concerned to participate in the hearings.

All complaints are received at the Zone Office of DSCC, where the subproject is located and registered in the complaint book with instant intimation to the complainant. Complaints are investigated and heard within 15 days of registration and resolved in the third week of the receipt. GRC decisions, if agreed by the complainant is binding upon the PIU.

## **9. Implementation, Monitoring and Evaluation**

The DSCC will ensure that implementation of activities outlined in this SMP are implemented and followed in the subproject civil works process. Social inclusion, gender mainstreaming and management of other social risks and impacts identified and managed as above, will be monitored in line with the social analysis of inclusion and participation of various groups/agencies including women and consistent with the activities/issues that have been integrated into project design. The PIU, DSCC will monitor the issues on a regular basis and include the results in the monthly and quarterly reports and also submit to the World Bank.

Depending on the project contents and objectives, subproject indicators for evaluation should take into account, among other relevant aspects, the following points:

- Specific needs of community people including affected and beneficiary groups irrespective of gender and incorporation of them into subprojects implementation approach.
- Local knowledge and inputs for enhancement of subprojects outcomes.
- Intended and unintended social and gender effects of the subprojects.

Lessons and good practices to be drawn from the monitoring process which can help mainstreaming gender and inclusion of community people in project design and implementation in the subsequent identification, design and implementation of subprojects and any future projects.

## Appendix A: Social Screening of Bhuiyan Math Playground Improvement

1. **WARD NO:** 2
2. **WORK PACKAGE:** DCNUP/W-14A
3. **SUBPROJECT NAME:** Bhuiyan Math Playground Improvement
4. **DATE OF SCREENING:** The screening was conducted on February 26, 2020
5. **RESPONSIBLE PERSON:** Mr. Md. Shakhawat Hossain Khan, Social Safeguard cum Communication Specialist of DCNUP and respected Councilor of Ward No. 2, DSCC, Md. Anisur Rahman conducted the screening on behalf of the DSCC and the community respectively.
6. **Brief description of site location:** The subproject is located in the Khilgaon-Mugda-Bashabo neighborhood under Ward No. 2 of the DSCC. Bhuiyan math playground is bounded by Khilgaon Police Station on the North, Sobujbagh and Shahjahanpur Police Station on the South, Rampura Police Station on the South-East and Ramna Police Station on the West. The area is enriched with many schools and colleges, small garments factories and markets. There is a historical/heritage site/building named Buddha Mondir within 2 kilometers of subproject area. The entire playground that is proposed for improvement and construction under the subproject is in miserable condition right now. As a result, the local people are not getting desired benefit from this playground. Physical expansion of this playground is not possible due mainly to compact settlement and high price of land along the playground. There are few trees beside the playground. There is no infrastructural facility inside or outside of the playground for sports and amusement.
7. **Subproject description:** The subproject “Bhuiyan Math Playground Improvement” is 4694.35 square meters ( 1.16 acres)The field is now mostly used by young boys for games like football, cricket, badminton, etc. in a haphazard manner in different parts of the field for recreational purposes. There is also an existing cricket net practice area in the field. The local people play volleyball in this field as well, which is a very popular activity among them. This field is always crowded with the teenagers who play in this field almost all the time. Goran Road, a narrow lane, surrounds the field on north, east and southern side. The playground is in miserable condition and unhealthy right now. Physical expansion of the playground is not possible due mainly to compact settlement and high price of land along the playground. On the east side, there is an existing Secondary Transfer Station (STS. In the south east corner there located a WASA pump.
8. **Site Map**

9. Pictorial presentation of Proposed Location of Bhuiyan Math Playground Improvement

### 10. Social Screening Form :

Screening Questions	Yes	No	Unknown	Remark
Any Permanent acquisition or temporary land acquisition required?		X		It's a government land owned by PWD. PWD has given NOC regarding development of the playground (No Objection Certificate is Attached)
Any dislocation or involuntary resettlement of residential HHs?		X		No dislocation or involuntary resettlement of residential households will be caused by the subproject.
Dislocation and involuntary resettlement of Commercial premises?		X		No dislocation or involuntary resettlement of any commercial premises will be caused by the subproject.
Dislocation and involuntary resettlement of squatters?		X		No squatters will be affected due to subproject.
Poor, women and children or other vulnerable groups affected by the project activities		X		These disadvantaged and vulnerable groups are not likely to suffer specific harm, apart from those suffered by general populace due to the subproject.
Whether people are meaningfully consulted and they are aware of the project?	X			Consultation with communities were held during the design preparatory stage of the subproject and they are aware of the subproject.
Any GRM established? Do the people know about its existence?	X			Two tier GRM has been established for the Project. The local people are informed about GRM during consultation meeting.
Summary of impact of construction activities – noise, traffic, spread of diseases.	X			During construction people may face temporary restriction of sports, dust and noise related problems but this will be managed under the ESMP of the works package/contract.  As the subproject area is within the city, the risk of spread of diseases will be low and manageable.
Summary and types of waste generation	X			Construction waste which will be generated will be managed under the ESMP of the works package/contract.
Possible transmission of communicable diseases (such as	X			The subproject activities will be carried out during COVID-19 pandemic situation. Therefore,

Screening Questions	Yes	No	Unknown	Remark
COVID-19, STI's and HIV/AIDS, etc.) from workers to local populations?				the workers will need to be provided with training on COVID protocols, provided with free PPE and temperature and other symptoms should be monitored on a regular basis.
Will there be high labor requirement and possibility of labor influx.		X		The subproject will not require high number of labors so there is no possibility of labor influx as the local labor will be in the subproject activities.
Presence of cultural heritage site and summary of impact.		X		There is no cultural heritage in the subproject area that could be affected
Presence of any ethnic communities in the area and possible summary impact		X		There is no ethnic communities in the subproject area.

**11. Conclusion from the social screening:** The screening confirms that improvement of Bhuiyan Math Playground does not have any involuntary resettlement impact. No Resettlement Plan will therefore be required. According to the project Resettlement Policy Framework (RPF), the other social issues like social inclusion, community participation, labor influx, gender mainstreaming, GBV risks and grievance resolution will be managed under the Social Management Plan (SMP) of the Subproject.

## **Appendix B: COVID-19 Protocols to be followed at Construction Site**

Considering the COVID-19 pandemic across the world, it is important to take into consideration and alert for preparation and implementation of any project. For ensuring the health security following standard guidelines for Office and Field Work during COVID-19 Pandemic are proposed:

### **A. Pre-cautionary measures for participant during meeting, training session or public gathering**

- All Participants (men, women and children) must wear mask.
- Participant's mask must cover always his/her nose and mouth during the meeting, training session or public gathering.
- Participant who is sick by fever, cold, cough, sore throat, having breathlessness must prohibit attending in the meeting.
- Participant whose family member(s) tested Corona Positive must not be invited and prohibited to attend in the meeting, training session or public gathering.
- Participant who/whose family member(s) recently transferred to the home from other district, country or long journey by public transport must not be invited and prohibited to attend in the meeting, training session or public gathering.
- Participant who/whose family member(s) recently visited or touched to the Corona Positive patient or attended the funeral of a Corona positive death but did not stayed in 14 days home quarantine must not be attended in the meeting, training session or public gathering.
- The sitting arrangement of the training room must ensure U shape keeping Social Distancing at least 3.2 feet/1 meter from each participant.
- Facilities for washing hand and face must ensure in the meeting, training session or gathering room/yard/area. Participant must enter the session after washing his/her hand and face by using soap water or hand sanitizer.

### **B. Pre-cautionary measures for Survey Team during survey conduction**

- Must wear mask and hand gloves during survey. At best wearing Personal Protective Equipment (PPE). The mask must be at least 3 layers.
- Must use official transport or private vehicle *i.e.* bi-cycle, motorbike. Best to avoid public transport.
- Before travelling, recommended to spray by using disinfectant in the official transport.
- Carry personal hand sanitizer. Use it intervallic during survey.

- Must maintain 3.2 feet/1 meter social distance if the survey conduct face-to-face and the respondent also must wear mask as instructed. Survey conductor must be alert whether the responded physically risk or risky for Covid-19.

### **C. Pre-cautionary measures for Office Staff during office hours**

- Must use tissue or sanitized clean cloth or hand knee during sneezing.
- Don't throw waste in your work station. Use bin for waste management.
- Keep your shoes outside the office complex. Use shoe rack.
- Keep clean your desk/work station. Best to spray your surrounding by disinfectant.
- All staff must wear mask all time.
- Alert to touch contaminated surface.
- Maintain social distancing with your colleague during work. Set your desk maintaining social distance.
- Employees who have returned from an area where COVID-19 is spreading should monitor themselves for symptoms for 14 days and take their temperature twice a day.
- Always disinfect your personal pocket materials i.e. money bag, vanity bag, sun glass, mobile phone, home key and ATM card.
- Be alert using office common wash room and toilet. Spray with disinfectant onto washroom basin, toilet before and after using them. Clean them at least three time by using toilet cleaner.

### **D. Pre-cautionary measures to follow at workplaces**

#### **➤ Physical distancing**

- Measures will be taken to keep a distance of at least 1 meter between people and avoid direct physical contact with other persons (hugging, touching, shaking hands), strict control over external access, queue management (marking on the floor, barriers);
- Reduce density of people in the building (no more than 1 person per every 10 square meters), physical spacing at least 1 meter apart for work stations and common spaces, such as entrances/exits, where congregation or queuing of employees or visitors/clients might occur will be ensured;
- Non-essential travel to work sites will be prohibited;
- Workers will be sensitized with one-to-one meeting or publication materials to comply with instructions from the government relating to COVID-19;
- Workers will be sensitized with one-to-one meeting or publication materials on whom to contact if they feel ill while at work;

- Workers will be monitor before appoint for work through medical professional if he/she is infected with COVID-19 or bearing symptom of fever and cough themselves for symptoms for 14 days;
- Thermal screening at the workplace will be introduced;
- Temperature of all the workers and staff will be monitored twice a day and they will be urged to self-monitor their health;
- If they feel unwell, they will be advised to stay at home, self-isolation, and contact a medical professional; and
- The local health authorities will be contacted to keep attendance and meeting records in order to facilitate or undertake contact-tracing.

### ➤ **Hygiene**

- Regular and thorough handwashing with soap and water or hand hygiene with alcohol-based hand-rub before starting work, before eating, frequently during the work shift, especially after contact with co-workers or customers, after going to the bathroom, after contact with secretions, excretions and body fluids, after contact with potentially contaminated objects (gloves, clothing, masks, used tissues, waste), and immediately after removing gloves and other protective equipment but before touching eyes, nose, or mouth;
- Hand hygiene stations, such as hand washing and hand rub dispensers, should be put in prominent places around the workplace and be made accessible to all labors, staff, contractors, clients or visitors along with communication materials to promote hand hygiene;
- Medical face masks and paper tissues will be made available at the workplace, for those who develop a runny nose or cough at work, along with bins with lids for hygienic disposal;
- Wearing mask or face covering for all labors, staff, contractors, clients or visitors will be ensured;
- It will be ensured that any sick worker not come to work; and
- If a member of staff or a worker feels unwell while at work, he/she should be provided with a medical mask so that he/she may get home safely.

### ➤ **Communication**

The alternate approaches that will be practiced for stakeholder engagement will include:

- Minimizing the need for physical meetings, teleconferencing facilities will be introduced;

- Consultations in small groups will be arranged if smaller meetings are permitted;
- Efforts to conduct meetings through online channels (WebEx, Zoom, Skype, Google Meet, Google Classroom etc.) will be introduced;
- Diversify means of communication like social media, chat groups, dedicated online platforms and mobile Apps (Facebook, Twitter, WhatsApp groups, project web links/websites, etc.) will be introduced;
- Local channels of communications such as cable TV, religious leaders like Imam of Masjid, Purohit of Mandir and Father of Church, dedicated phone-lines, SMS broadcasting, and public announcements (miking) when stakeholders do not have access to online channels or do not use them frequently will be used;
- Posters, short videos, and electronic message boards will be introduced to increase awareness about COVID-19 among workers and local people; and
- Labors will be encourage through one-to-one meeting to use GRM.

#### Appraisal Level Consultation with Primary Stakeholders

Appraisal Level Stakeholders Consultation Meeting at Ward Councilor Office, Ward No.2, South Goran DSCC - March 09, 2022:

An appraisal level stakeholder consultation was held on March 09, 2022 at Ward Councilor Office, South Goran, under Ward No. 2, DSCC to appraise the stakeholders about what they demand and what the DSCC has accommodated in the design. The respected Councilor of Ward no.2, DSCC, Mr. Md. Anisur Rahman, has chaired the meeting. Mr. Md. Anisur Rahman has started the meeting with a welcome address and informed the local people about the agenda. Addressing the appraisal level consultation meeting, the respected Councilor has thanked the World Bank and DSCC for considering the stakeholders' opinions in the design phase and expressed his happiness for holding the appraisal level consultation meeting with design and drawing. He has requested the design team to present details of the design. He has also requested the stakeholders to provide their observations if any on the design after the presentation.

The respected Councilor of Ward No. 2, DSCC, Mr. Md. Anisur Rahman is briefing the appraisal stage stakeholders' consultation meeting organized for Improvement and Construction Works of Bhuian Math Playground on March 09, 2022 at Ward No. 2, DSCC.

A part of the participants at the appraisal stage stakeholders' consultation meeting organized for Improvement and Construction Works of Bhuian Math Playground on March 09, 2022 at Ward No. 2, DSCC.

The design team of DSM Consultant of DCNUP, DSCC is presenting the design and drawings at the appraisal stage stakeholders' consultation meeting on March 09, 2022 at Ward No. 2, DSCC.

The design team of DSM Consultant of DCNUP, DSCC has presented the design and drawings in PowerPoint view at the appraisal stage stakeholders' consultation meeting on March 09, 2022 at Ward No. 2, DSCC.

**Consultation by Mr. Mustafa Hasan, Local Resident, Goran, Ward No. 2, DSCC - March 09, 2022**

After the completion of the presentation of the design team, Mr. Mustafa Hasan has thanked the DSCC for developing an excellent design. He has said that Bhuian Math Playground Project has been started with the help of the honorable Mayor and the tireless work of the respected Councilor. He has further said that the design team has been able to provide the facilities that we wanted in the design level stakeholders' consultation meeting even in such a small place. He has appreciated that the design is very attractive according to the presentation. He has hoped that the work would start and end as per the deadline set for the implementation of the project. He has also hoped that the proposed playground will fulfill the required demand of the local people especially children and the young generation. He has thanked once again World Bank, DSCC and all relevant organizations/persons who have prepared the design.

**Consultation by Mr. Deen Mohammad, Local Resident, South Goran, Ward No. 2, DSCC - March 09, 2022**

Mr. Deen Mohammad has requested that the boundaries of the field should be demarcated before starting the construction work of the playground.

Consultation by Mr. Md. Al Amin, Local Resident, South Goran, Ward No. 2, DSCC - March 09, 2022

Mr. Md. Al Amin has praised the proposed design. He has mentioned that according to the proposed design, the playground has many facilities for the players, but it has no dressing room and toilet. He has demanded to include it in the design considering as necessary for the players.

Consultation by Mr. Iqbal Hoshen, Local Resident, South Goran, Ward No. 2, DSCC - March 09, 2022

Mr. Iqbal Hoshen has stated that he is 100% satisfied with the design. He has proposed to name the playground as Sheikh Russel Playground instead of Bhuian Math Playground as decided by the honorable Mayor.

Participants are speaking at the appraisal level stakeholders' consultation for Improvement and Construction Works of Bhuian Math Playground held on March 09, 2022 at Ward No. 2, DSCC.

Concluding Remarks by Mr. Md. Anisur Rahman, Ward Councilor, Ward No. 2, DSCC - March 09, 2022

In his concluding remarks, Mr. Md. Anisur Rahman has expressed his satisfaction with the proposed design of the Bhuian Math Playground. He has said that this design has been done in light of the design level stakeholders' consultation meeting which was held on February 26, 2020. He has mentioned that all the facilities we had demanded in the design level stakeholders' consultation meeting for the playground were fully received but only the cricket field and basketball court were partially received. This is because the proposed location for the playground is small so construction of a cricket field and a full basketball court could not be possible. He has added that despite the limited space, the design team has been able to incorporate cricket net practice and a half basketball court in the playground. He has requested to include a dressing room and toilet in the design (if possible) considering as necessary for the players. If it is not possible to include the dressing room and toilet for the players in this design in any way, then the dressing room and toilet must be arranged in the community center to be built next to the Bhuian Math Playground. He has hoped that the greenery which will be created in this playground must be sustainable. He has requested to name the new playground as Sheikh Russel Playground instead of Bhuian Math Playground.

Consultation by the Design Team, DSM, DSCC - March 09, 2022

The design team has informed the participants that they have developed the design of the playground considering the opinions received from the participants at the design level stakeholders' consultation meeting held on February 26, 2020. They (the design team) have replied to the demands, requests and

suggestions of some participants saying that they will convey the stakeholders' demands to the authorities concerned regarding the improvement and construction works of Bluain Math Playground. Stakeholders present in both meetings were asked if this design is compatible with the suggestions given by them. They have all expressed satisfaction with the design saying that it has met almost all the suggestions they provided in the stakeholders' consultation meeting at the design preparatory stage.

As there were no other issues to discuss at that moment, the consultation meeting was ended with vote of thanks.

## C-2: Stakeholder Meeting Minutes with vulnerable group for Bhuiyan Math Playground Improvement

### Dhaka South City Corporation Dhaka City Neighborhood Upgrading Project (DCNUP)

**Subject** : Minutes of Consultation with Primary Stakeholders for Improvement and Construction Works of Bhuiyan Math Playground at Ward No. 2, DSCC  
**Package No** : DCNUP/W-14A  
**Package Name** : Improvement and Construction Works of Bhuiyan Math Playground at Ward No. 2, DSCC

#### Stakeholder Consultations with Primary Stakeholders:

##### Primary Stakeholders – Direct Beneficiaries

The primary stakeholders under this subproject area are vulnerable groups, students, youths and senior citizens. These people are the direct beneficiaries of the subproject interventions and are considered Primary stakeholders. It may be mentioned here that the primary stakeholders under the vulnerable group of this subproject area are poor (living under poverty) person, blind (visually challenged) person, disabled (physically challenged) person, single mothers, slum dwellers, the tea stall owner, mobile street vendors, etc.

#### Consultation Process

Information Shared	Comments by stakeholders	Actions to be taken
Background information of the subproject including Improvement and Construction Works of the Bhuiyan Math Playground	The existing Math is not useable for children, students, youth and senior citizens of the locality to play and walk regularly.	The design team will try to make the existing Math useable for children, students, youth and senior citizens of the locality to play and walk regularly.
	Wanted to see the Math as an improved and decorated playground with appropriate playing and walking facilities.	The design team will try to incorporate the stakeholders' suggestions.
	Suggested to construct the running track, football field, net pitch for cricket, volleyball court and badminton court, basketball court, gym, children's playground, walkway, shaded seating corner, vegetation, proper utility (electrical, water pumps, etc.), etc.	The design team will try to incorporate the suggestions.
	Easy access of all classes of children, students and youths of the local community (especially vulnerable groups) should be ensured.	The PIU will approach DSCC authority to ensure easy access of all classes of children, students and youths of the local community (especially vulnerable groups) so that they can play in the playground after renovating the Math.
	Toilets beside the playground should be established.	The DSCC will try to construct toilets beside the playground so that players and local people, as well as the people who will come to walk in the playground, can use it when necessary.

Information Shared	Comments by stakeholders	Actions to be taken
	A boundary with Tin to block the construction site should be created during the construction period for the safety of the local people as well as controlling air pollution.	The DSCC will ask the Civil Contractor to ensure a boundary with Tin to block the construction site during the construction period.
	Reducing dust-related pollution during construction.	The DSCC will ask the Civil Contractor to spray water to reduce dust-related pollution during the construction period so that people cannot feel disturbed.
	Controlling sound during construction.	The DSCC will ask the Civil Contractor to control sound and to work in the daytime so that people cannot feel disturbed.
	Employment opportunities should be created for vulnerable people or their family members.	The DSCC will ask the Civil Contractor to hire labor from among local people especially vulnerable people or their family members in construction work.

#### Consultation with Primary Stakeholders

For the subproject area, a series of targeted consultations (interviews) as presented below were conducted with primary stakeholders. The summary of concerns of stakeholders raised during interviews is presented as follows:

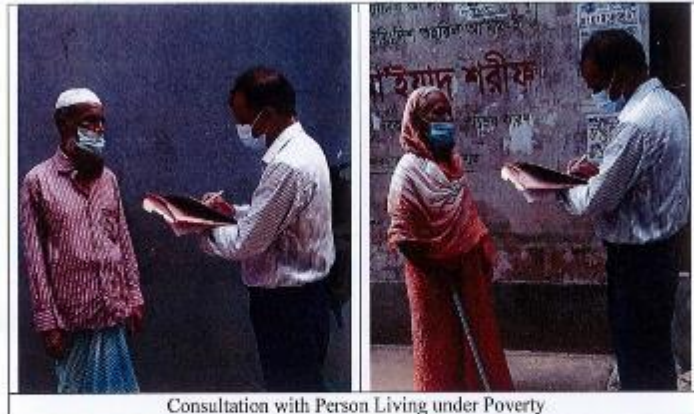

All the participants were informed that the DSCC is trying to construct a football field, walkway, seating corner, and vegetation, etc.

##### 1. Consultation with Vulnerable Group

Consultation with Mr. Md. Jano Alam and Ms. Jahanara Begum, Poor (Living under Poverty) Person, Goran, Khilgaon, Ward No. 2, DSCC- 23 September, 2021

They have demanded to create employment opportunities for the vulnerable people or their family members at the construction site. They have also demanded to construct toilets beside the playground so that players and local people, as well as the people who will come to walk in the playground, can use it when necessary. They have suggested developing a boundary with Tin to block the construction site during the construction period for the safety of the local people as well as controlling air pollution.

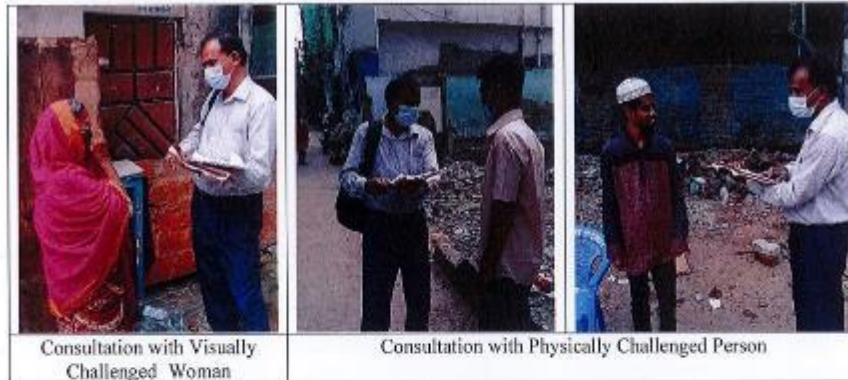

Consultation with Person Living under Poverty

Consultation with Ms. Naziron Begum, Visually Challenged Woman, Goran, Khilgaon, Ward No. 2, DSCC- 23 September, 2021

She has demanded to create employment opportunities for vulnerable people or their family members at the construction site.

Consultation with Mr. Shah Alam and Mr. Md. Kausar, Physically Challenged Person, Goran, Khilgaon, Ward No. 2, DSCC- 23 September, 2021

They have demanded to create employment opportunities for the vulnerable people or their family members at the construction site.

Consultation with Visually Challenged Woman

Consultation with Physically Challenged Person

Consultation with Ms. Shahana Begum and Ms. Farida Begum, Single Mother, Goran, Khilgaon, Ward No. 2, DSCC- 23 September, 2021

They have demanded to create employment opportunities for the disadvantaged people as per their skill at the construction site. They expected easy access of children, students, aged people and youths of the

local community so that they can play in the playground after improvement of the Math. They have requested to spray water to reduce dust-related pollution and to control sound pollution during the construction period.

Consultation with Single Mothers

Consultation with Mr. Jahangir Sarder and Ms. Tahmina, Slum Dweller, Goran, Khilgaon, Ward No. 2, DSCC- 23 September, 2021

The slum dwellers demanded to DSCC to ensure easy access of all types of people including slum dwellers, youths of the local community to play in the playground after renovating the Math. They have also requested to spray water during the construction period.

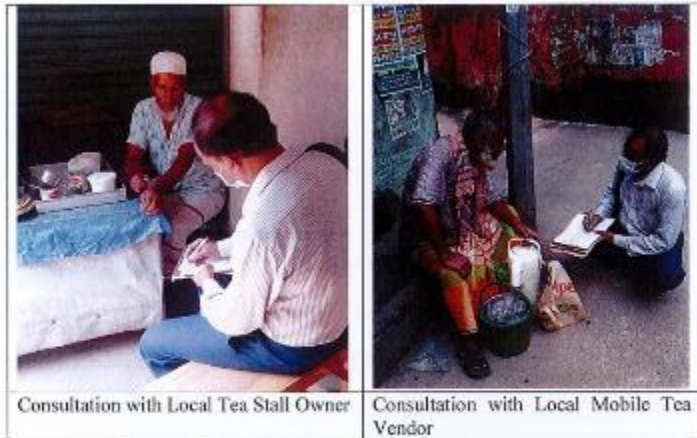

Consultation with Slum Dwellers

Consultation with Mr. Md. Shamim and Mr. Helal Miah, Tea Stall Owner, Goran, Khilgaon, Ward No. 2, DSCC- 23 September, 2021

They have demanded to create employment opportunities for the vulnerable people at the construction site. They have also demanded to ensure easy access of all classes of children, students and youths of the local community so that they can play in the playground after completion of improvement. They requested to ask the contractor to spray water to reduce dust-related pollution.

Consultation with Local Tea Stall Owner

Consultation with Local Mobile Tea Vendor

Consultation with Mr. Md. Faruk, Mr. Babul Miah, Mr. Md. Zafar Ali and Mr. Khokon Das, Mobile Street Vendor, South Goran, Khilgaon, Ward No. 2, DSCC- 23 September, 2021

They are very happy by providing their opinions for the improvement of the playground. They requested to design in such a way so that all classes of children, students and youths of the local community can use the playground after development. They have suggested that during construction period, a tin made boundary should be given to block the construction site for the safety of the community people as well as controlling air pollution.

Consultation with Street Mobile Vendors

*Signature*

## 2. Consultation with Student

Consultation with Jahid Hasan Roni, Md. Shuvo Miah, Monira Akter, Shimu Akter and Mayesha, Student, Shantipur High School, Goran, Khilgaon, Ward No. 2, DSCC- 23 September, 2021

They have pointed out that though the existing Math is not useable, children and students of the locality play here regularly facing the adverse situation. They have also pointed out that if the Math is improved and decorated the local children, as well as students, will come to the Math and play here. They have demanded to construct running track, football field, net pitch for cricket, volleyball court and badminton court, basketball court, children's playground, etc. They have suggested developing a boundary with Tin to block the construction site during the construction period for the safety of the local people (especially children and students) as well as controlling air pollution.

Consultation with Local Students

## 3. Consultation with Youth

Consultation with Mr. Md. Al-amin and Mr. Mahmud Hasan Mamun, Youth, South Goran, Khilgaon, Ward No. 2, DSCC- 23 September, 2021

They have said that this densely populated area does not have any playground for children, students and young people to play and also a walkway for senior citizens. They have also said that though the existing Math is not useable, children, students and the young generation of the locality play here regularly facing problems. They have mentioned that if the Math is improved and decorated the local children, as well as young people, will come to the Math and play here which keeps them away from drugs and mobile game addiction. They have demanded to construct the running track, football field, net pitch for cricket, volleyball court and badminton court, basketball court, gym, children's playground, walkway, shaded seating corner, vegetation, proper utility (electrical, water pumps, etc.), etc. They have suggested developing a boundary with Tin to block the construction site during the construction period for the safety of the local people as well as control air pollution.

Consultation with Local Youths

**4. Consultation with Senior Citizen**

Consultation with Mr. Harun Rashid and Ms. Somiron Begum, Senior Citizen, South Goran, Khilgaon, Ward No. 2, DSCC- 23 September, 2021

They have appreciated the initiative mentioning that if the playground is developed playing habits will develop among the young generation of the area which may keep them away from the drug. They have stated that this densely populated area does not have any playground for children to play even a walkway for senior citizens. They have indicated that if the Math is improved and decorated the senior citizens will come to the Math and walk. They have suggested constructing a walkway around the playground and seating arrangement so that the senior citizens can walk and take rest and watch play.

Consultation with Local Senior Citizens

### C-3: Stakeholder Meeting Minutes at Design Stage for Bhuiyan Math Playground Improvement

**Dhaka South City Corporation**  
Dhaka City Neighborhood Upgrading Project (DCNUP)

**Subject: Dhaka City Neighborhood Upgrading Project (DCNUP),  
Minutes of the Stakeholder consultation Meeting on**

**Package No** : DCNUP/W-14/KB  
**Package Name** : Improvement and Construction works of **Bhuiyan Math Playground, Bashabo Balur Math Playground and Shabujbagh Middle Bashabo Children Park**

**Date:** 26.02.2020

- 1.0 **Chairperson** : Mr. Mohammad Anisur Rahman, Ward Councilor-2, DSCC
- 2.0 **Meeting Date & Time** : February 26, 2020 at 12:00 noon
- 3.0 **Meeting Place** : Beside the Math
- 4.0 **Attendee of the Meeting** : Local people including educationists, cultural personalities, politicians & businessmen  
(Attendance Sheet & Picture – Annex-A)

5.0 A stakeholders' consultation meeting was held beside the Bhuiyan Math Playground at 12:00 noon on February 26, 2020. Mr. Mohammad Anisur Rahman, Ward Councilor-2, DSCC, presided over the meeting. The Councilor started the meeting with welcome address and briefed the local people about agenda of the meeting. **The councilor expressed his gratitude to the DSCC authority and World Bank for selecting Bhuiyan Math Playground for improvement and construction works as well as holding such stakeholders' consultation prior to start work.** He said that the densely populated area does not have any playground for children and young people to play and also walkway for senior citizens. He pointed out that though the existing Math is not useable, children and young generation of the locality play here regularly facing adverse situation. If the Math is improved and decorated the local children as well as young people will come to the Math and play here which keeps them away from drugs, the Councilor mentioned adding that the senior citizens of the area will also be happy with walkway to be constructed around the Math. In this connection, he pointed out that Prime Minister Sheikh Hasina has declared zero tolerance about drug. The Councilor has demanded four gates for entering into the playground. He has also demanded high fence two galleries for viewers/audiences. The Councilor has further demanded a modern garbage disposal center (STC) and primary healthcare center beside the playground. The Councilor has also demanded two pitches so that local children and youth can practice cricket and the locality can nurturing national players. The Councilor has also demanded a small Shaheed Minar at a corner of the playground. The Councilor has mentioned that the playground may have a gymnasium, Badminton and Volleyball courts for the local people.

6.0 Mr. Saidullah Khan Bhaga, a local social worker and sport organizer, has expressed the hope that if the playground is developed use of drug from the area will be eliminated. Regarding development of the playground, he suggested to construct walkway around the playground and seating arrangement so that senior citizens can walk and take rest and watch play. He has also suggested to plant trees beside the

playground to reduce air pollution of the area. Mr. Bhaga has demanded pitch for cricketers. He has further suggested to control dust and sound pollution during construction works.

- 7.0 **Mr. Shafiullah, a local resident,** has suggested to establish a gymnasium alongside the playground. He has also suggested to plant trees beside the playground.
- 8.0 **Mr. Deen Mohammad, a local resident,** has requested the authorities concerned to ensure that children of the area can play in the playground after renovating the Math. He has also suggested to develop walkway around the playground so that local senior citizens can walk. He has further suggested to plant trees around the playground so that the environment of the area could improve.
- 9.0 **Mr. Afzalur Rahman Totul, a local resident,** has welcomed the initiative of constructing and renovating of Bhuian Math Playground and requested the authorities concerned to establish a library so that people of the locality can read books and newspaper sitting there.
- 10.0 **Mr. Mostafa Hasan Dulal, a local resident,** has urged the authorities concerned to construct walkways around the Math so that senior citizen can walk. He has also requested to have a healthcare center beside the playground so that local people can get primary healthcare service from here.
- 11.0 **Mr. Kazi Jahirul Alam Nasim, a local resident,** has suggested to have gallery, walkway and cricket pitch in the playground. He has also requested to spray water to reduce dust created air pollution and to control sound pollution during construction period.
- 12.0 **Mr. Sajjad Hossain Robin, a local resident,** has requested the authorities concerned to construct gallery, walkway and cricket pitch in the playground. He has also requested to spray water to reduce dust related pollution and to control sound pollution during construction period.
- 13.0 **Mr. Mohammad Rezaul Karim Raja, a local resident,** has suggested to have public toilet beside the community center so that players and local people as well as the people who come to walk in the playground can use it when necessary.
- 14.0 **Mr. Md. Nurul Islam Sikdar, a local resident,** has expressed the hope to have gallery, walkway and cricket pitch in the playground. He has also requested to plant trees around the playground to improve environmental condition of the area. He has further suggested to spray water to reduce dust related complication and to control sound pollution during construction period.
- 15.0 **Mr. Abdur Razzak Rubel, a local resident,** has demanded net pitch in the playground so that children can practice cricket here. He has also demanded to construct walkway and gallery around the playground so that people can enjoy match supposed to take place and senior citizens can walk here. He has further requested to plant trees around the playground to improve air condition of the area. He has also demanded a badminton court for local people and a library beside the playground.

- 16.0 Mr. Engr. Omar Faruk, an engineer of WASA, has appreciated the initiative mentioning that if the playground is developed playing habit will develop among the young generation of the area which may keep them away from drug.

As there was no other issues to discuss at the moment, the chairperson announce the consultation meeting end with vote of thanks.
